Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-3,8-9, drawn to a filled snack and process of making it, classified in class 426, subclass 94.
- II. Claims 4-9, drawn to process of making a filling and product containing such filling, classified in class 426, subclass 572.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated and independent. The filling of invention II is different from the filling of invention I. Invention I does not require the processing steps of invention II.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II or vice versa, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
